

TEAM HEALTH CHECK

OVERVIEW

Just like it's wise to visit the doctor for a regular health check up, so it's important to periodically check the health of your team. If you're not stopping to do this, it's almost certain your team will be underperforming. This module is a practical way for managers to assess the health of their team, and then use those results in a meaningful way to improve performance.

OBJECTIVES

- Understand what a team health check is and what it is used for
- Implement a team health check
- Share the results of a team health check in an accessible and visual manner.

DURATION

20 minutes. Including questionnaire and downloads.

AUDIENCE

This e-learning course is designed for all leadership roles in a company and will help anyone who wants to improve their team performance.

CERTIFICATION

Upon completion of the course the learner will receive a CPD certificate.
